Customer Name: _____ Email: _____

Tel: _____ Vehicle Year/Make/Model: _____

Due to the extensive nature of the restoration process providing an exact estimate of the total cost of the entire restoration project cannot be provided. We will be happy to provide a “ballpark” figure as to the cost of the project but this figure will likely vary once work commences.

The following billing procedures will be followed for your restoration:

- A \$3,000 minimum deposit is required at the time of commencement of the project. This deposit will be applied to all labor hours and materials consumed until it is depleted.
- Invoices reflecting work performed and the amount of your deposit will be sent twice monthly via email. (Progress photos will be made available to the customer upon request). In the event a balance is due on your account payment will be due upon 15 days of receipt. Work will not commence until payment is received. If payment due is not received within 15 days a storage fee of \$25 a day will be applied until payment is received and work is resumed.
- Restoration charges will be billed on a “time and materials” basis. Time spent on projects will be kept by time log and provided to the customer along with a list of materials used. Our shop rate is \$75 per labor hour. Invoices will also include a charge for “body supplies” which will include such items as body filler, putty, primer, cleaning solvents, abrasives, rags etc. These costs will be included on one of your final invoices once the project is complete or be included with the invoice for paint costs.
- Typically the restoration customer will provide the parts needed for their project. Should the customer request that the shop obtain the parts the customer agrees to a markup of 25% and our hourly rate for administrative costs related to ordering parts, tracking, issuing payment to parts vendors etc.
- Apex Collision & Classics accepts the following payments: CASH, CASHIER’S CHECK, MONEY ORDER, CHECK, VISA, MASTERCARD OR DISCOVER. Please note that payments made via credit or debit card will be subject to a 3% service fee per transaction.

I HEREBY AUTHORIZE the work as referenced and agree to the billing procedures as listed above. Should I elect to terminate the repair of my vehicle I understand that charges and penalties may apply, which may include but are not limited to: diagnostics cost, labor services performed, parts and/or part return fees, materials, storage, administration services, and other miscellaneous costs. I shall be provided by the shop an accounting of all these charges and fully understand that my vehicle shall not be released until these charges have been fully satisfied.

Repair Process and Policies

Please initial the following:

Estimates

Due to the extensive nature of the restoration process, providing an exact estimate of the total cost of the entire restoration project can't be provided. We are happy to provide a "ballpark" figure as to the cost of the project but this figure will likely vary once work commences. The customer must acknowledge they are waiving the right to a written estimate under Washington State Law (see RCW46).
